

Lab2: Implementation of Multiplication and Division Algorithms Using MATLAB

1.Objectives

To study and implements Multiplication and division algorithms

2.Software / Tools Used

MATLAB

.....

3.Theory

A.Multiplication algorithm

-theory

1. Shift–Add Multiplication Algorithm

-theory

-algorithm

-flowchart

-example

2.Booth’s Multiplication Algorithm

-theory

-algorithm

-flowchart

-example

B.Division algorithm

-theory

3.Restoring Division Algorithm

-theory

-algorithm

-flowchart

-example

4.Non-Restoring Division Algorithm

-theory

-algorithm

-flowchart

-example

4.Implementation

-lab works

5.Results/Outputs

6.Discussion and Conclusion
